zPoint Products's Single Relay (1x digital out)

The **zPoint Switched Relay Unit** plugs into a 120 VAC outlet, and provides a switched 120 VAC outlet. The Switched Relay Unit receives ZigBee commands to set a relay on and off, and replies with status information. The Switched Relay Unit can switch loads up to 120 VAC at 10 A.

Parameter	Specification												
Input	Power, wireless commands												
Output	Max switched power: 10 A at 120 VAC, 60 Hz (resistive load)
